

# TAKING CENTER COURT.

Cementing itself as a leader on the sport's biggest stages, Wilson is also taking the lead on the integration of sustainability with the tennis ball industry. Committed to supreme performance on the court and heightened awareness off of it, our 2020 collection shines from the first point to the last while taking a critical first step to improving environmental impact.

## TRINITI

- **PLAYER LEVEL:** Any
- **CORE:** Engage Core features advanced plastomer material to thicken core while maintaining weight and rebound characteristics
- **FELT:** STR Felt is more flexible than standard felt, contributing greater core compression and longer dwell times
- **HOW IT PLAYS:** Slightly slower playing ball that stays longer on the string bed
- 100% Sustainable Packaging
- 5% of Trinité profits support worldwide sustainability efforts

## US OPEN

- **PLAYER LEVEL:** Advanced
- **CORE:** 100% Natural rubber for maximum consistency and resiliency
- **FELT:** Premium woven felt for Extra Duty and Regular Duty
  - Extra Duty: Ideal for hard courts with longer wool nap and true balance of fluff and durability
  - Regular Duty: Ideal for indoor play and humid conditions with tighter weave and shorter wool nap, leading to reduced fluffing and faster pace
- **HOW IT PLAYS:** Wilson's fastest and lightest playing ball
- Official Ball of the US Open since 1978

## ROLAND GARROS

- **PLAYER LEVEL:** Advanced
- **CORE:** 100% Natural rubber for maximum consistency and resiliency
  - Uses harder end of core specs for added durability during longer rallies
- **FELT:** Designed for grueling rallies on red clay, felt features Water Resist treatment to limit moisture and dirt pick-up for added consistency and visibility
- **HOW IT PLAYS:** Creates sensation of sturdier ball that plays fast
- Official Ball of Roland-Garros

## TOUR PREMIER

- **PLAYER LEVEL:** Intermediate/Advanced
- **CORE:** 100% Natural rubber for maximum consistency and resiliency
- **FELT:** High visibility felt with slightly thicker backing to create impression of more solid feel upon impact
- **HOW IT PLAYS:** Feels solid upon impact, rarely flies
- Created from ball used at the Australian Open until 2018

## ULTRA

- **PLAYER LEVEL:** Intermediate
- **CORE:** Blend of rubber types for increased durability
- **FELT:** Unique hi-visibility Duraweave felt provides exceptional durability and consistent fluff characteristics
  - Felt enables ink to penetrate deeper into fibers for enhanced logo wear

## CHAMPIONSHIP

- **PLAYER LEVEL:** Recreational
- **CORE:** Blend of rubber types for increased durability
  - Also available in High Altitude core for 3,500+ ft surfaces
  - Available in Extra Duty and Regular Duty
- **FELT:** Exclusive Duraweave felt features lower wool content with thicker backing for added durability
