# THE TECH FACTOR

LEARN ABOUT THE MATERIAL, FOAM AND TEXTURE TECHNOLOGIES THAT SET WILSON PADLES APART FROM THE COMPETITION.

## MATERIAL

### DOUBLE CARBON WALL 2.0

This evolution of Double Carbon Wall comprises a woven layer of carbon fiber on the surface along with a layer of proprietary carbon mapping underneath to create an impressive sweet spot with an enviable blend of power and control.

### CARBON FIBER FACE

A strategically woven layer of carbon fiber gives the player the ability to hit with ultimate power.

### PRIMERO CARBON FACE

Premium carbon integrated into the frame maximizes propulsion off the paddle face for mix of incredible power and quick responsiveness.

### CARBON FIBERGLASS COMPOSITE

Blend of carbon and woven fiberglass contributes lightweight feel and produces greater power than fiberglass paddles.

### FIBERGLASS WEAVE

Fiberglass frame construction supplies nice mix of stability and paddle responsiveness.

## HOLES

### SHARP HOLE TECHNOLOGY

Advanced hole-drilling process produces increased bite with every stroke.

## OTHER

### INFINITY EDGE

Revolutionary concave design along the paddle edge increases the sweet spot and playing surface for boost of power.

### SHOCK SHIELD GRIP

Comprises a unique blend of PU and Iso-Zorb gel to create an excellent combination of tack and cushioned comfort for less shock on every swing.

### PERIMETER WEIGHTING SYSTEM

Extra weight placed at 3 & 9 of padel racket increases the sweet spot and improves torsional stability through the swing.

## FOAM

### SOFT EVA FOAM

Offering a cushioned feel with impressive shock absorption, this softer foam core produces impressive lightweight power for players seeking a blend of comfortable feel and easy pace.

### CORE FOAM

Low density foam provides stable performance while retaining a nice soft, comfortable feel.

### FIRM EVA FOAM

This firm foam core produces solid, crisp shots for quicker ball deflection and excellent control. Ideal for intermediate to advanced players who feel comfortable operating at a quick pace with less margin for error.

## TEXTURE

### ARROW-GRIP

Arrowhead pattern texture on surface grips the ball for excellent feel and an extra degree of spin.

### OPTI-GRIP

Similar to a basketball, this uniform pebbled pattern on the surface optimizes ball grip for added control on high-powered, aggressive shots.

### SPIN EFFECT GRIP

Textured surface grips ball upon contact for enhanced spin and excellent feel on every shot.

## THROAT

### POWER PILLAR

Bridge across the throat creates an extra dose of power and additional stability through the swing.

# BELA™

"I demand nothing but the best from both myself and my paddle. I will put in the blood, sweat and tears necessary to become great. I combine tactical strategies with controlled aggression to apply continuous pressure on my opponents. I play fast, I play hard, and I play to win."

CONTROL ————— POWER

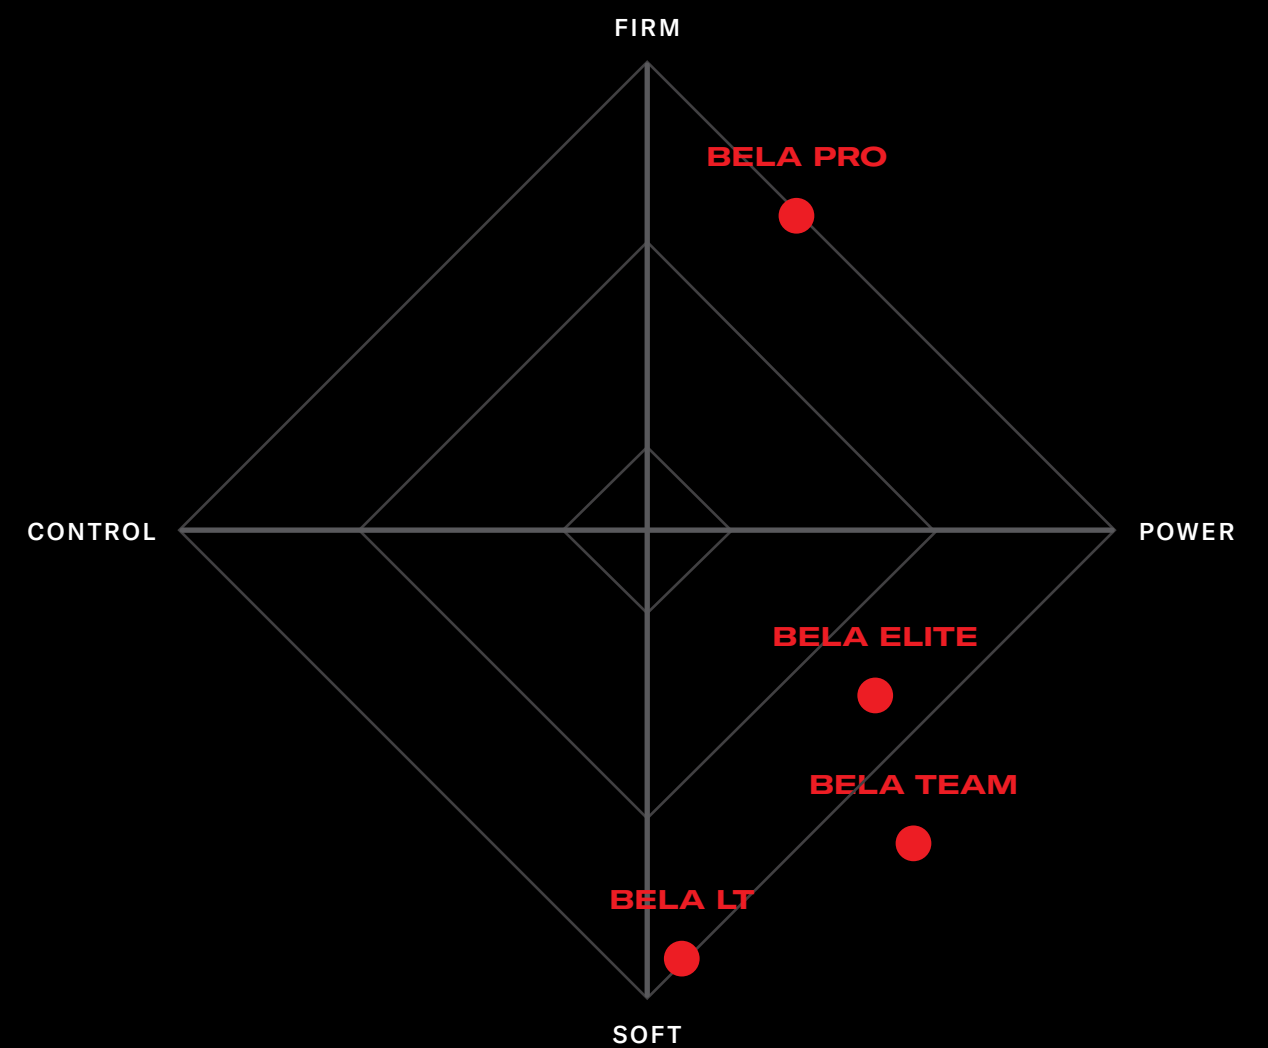

## BELA AT A GLANCE

Strong construction, unique texture and cutting-edge design delivers championship-quality blend of power and control for aspirational and accomplished players alike.

### BELA SWEET SPOT

Diamond shape creates wider sweet spot higher up on paddle face, appealing to more aggressive styles of play and creating more powerful smashes.

# PRO STAFF®

"There is no greater feeling than winning, and my best path to victory is through precision and control. I can play the ball close to the walls and create tough shots for my opponents, wearing them down with pinpoint accuracy and forcing them into mistakes."

CONTROL ——— POWER

## PRO STAFF AT A GLANCE

Reinvents a classic by raising the bar for ultimate control and precision with a strong surface construction and smaller head size.

### PRO STAFF SWEET SPOT

Round shape provides sweet spot in center of paddle to optimize creativity with short angles and precise ball placement.

# BLADE<sup>®</sup>

"Does offense or defense win championships? For me, it doesn't matter. My blend of power and control enables me to play defensively or offensively when necessary. Above all else, I crave a feel for the ball that makes me comfortable hitting a variety of shots to keep my opponents off balance."

CONTROL ————— POWER

## BLADE AT A GLANCE

Combines a responsive paddle surface with a smaller head size for superior feel and an effective blend of power and control

### BLADE SWEET SPOT

Tear Drop shape produces sweet spot higher up on paddle face for versatile performance with excellent blend of power and control.

# ULTRA™

"I seek to overwhelm my opponents with aggressive tactics and superior power. My arsenal is anchored by smashes, bandejas and drives. I am at my best when I go on the offense and pride myself on a speed-oriented style of play with high energy from start to finish."

CONTROL ————— ● ————— POWER

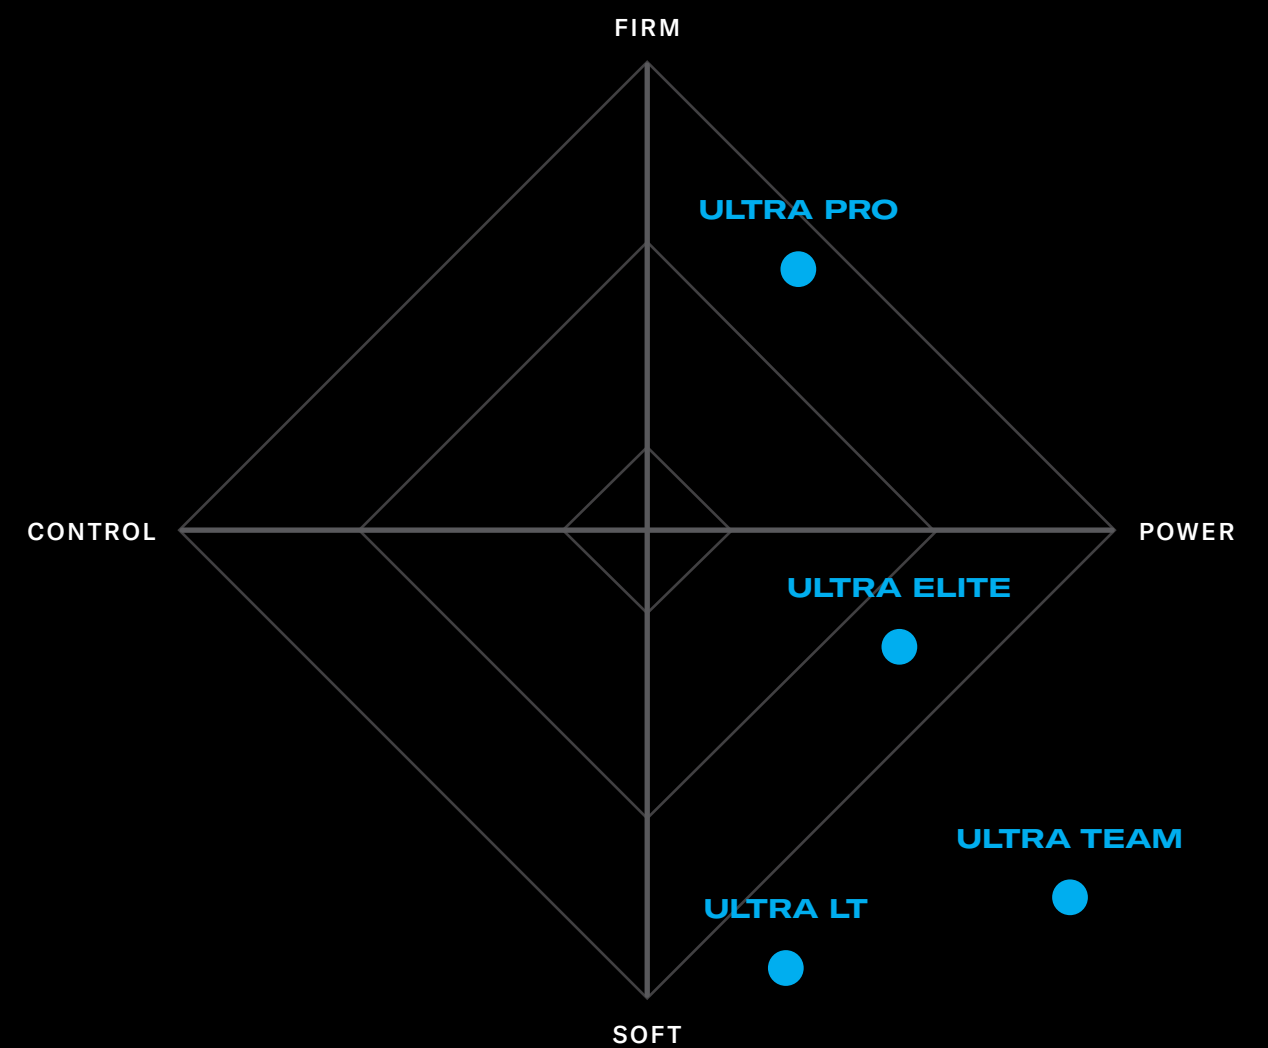

## ULTRA AT A GLANCE

Unique geometry pairs with strong, innovative construction for the pinnacle of power and explosiveness on every shot.

### ULTRA SWEET SPOT

# RACKET DIAGNOSTICS, REVOLUTIONIZED

Introducing the all-new Baiardo Tune Pro & Baiardo Tune: racket tuning machines that feature predictive software to take the guesswork out of racket customization. Measuring everything from tennis and badminton rackets to padel and pickleball paddles, these machines immediately enhance shop expertise with cutting-edge technology, clean design and supreme efficiency.

### BAIARDO TUNE PRO **NEW** \*

Analyzes rackets for variety of sports: tennis, badminton, squash, racquetball, padel, pickleball and platform tennis • Measures weight, balance, swing weight, string bed stiffness, vertical bending, horizontal bending, shaft stiffness and face deflection (paddle sports) • Simultaneously measures weight and balance with higher accuracy than established diagnostic centers • Tuning Mode uses predictive software to assist the user in racquet customization • Easy Digital Calibration eliminates discrepancies between devices • User manual available

# FOOTWEAR

## INNOVATIONS

### UPPER

#### SKINGUARD™

Upper protection for durability. Forefoot and lateral reinforcement to enhance support during lateral movements and push-offs.

#### SENSIFEEL™ 2.0

A minimally layered upper with mesh that provides enhanced breathability, feel, support, comfort, and a homogeneous fit.

#### QUICKLACE

Minimalistic and strong lace for one-pull tightening. Easy-on, easy-off.

### MIDSOLE/OUTSOLE

#### KAOS CHASSIS™

A double chassis construction to enhance the natural foot movement via a flexible arch support for comfort & agility and a lateral support for torsional control & overall stability.

#### PRO TORQUE CHASSIS (PTC) LIGHT

Arch technology is built for speed by providing ultimate stability and flexibility.

### MIDSOLE/OUTSOLE

#### R-dst<sup>+</sup>/R-dst<sup>+</sup>

##### MIDSOLE

R-DST™ – Best combination of cushioning and rebound for more dynamic performance.

R-DST™ – Augments cushioning and rebound for comfort and responsiveness.

#### DURALAST™

Exclusive high-density, consummately durable rubber compound provides super abrasion resistance and maximum traction on all surfaces.

#### DYNAMIC FIT

DF1 – Heel-to-toe drop 6mm. Low-to-the-ground court feel, dynamic comfort, agility.

DF2 – Heel-to-toe drop 9mm. Cushioned court feel and quick reaction.

DF3 – Heel-to-toe drop 12mm. All-around court feel and cushioning.

### AUXILIARY

#### WSS

Assymetrical heel counter for enhanced foot support. Reduced Rubber thickness on outsole eases propulsion. Lower EVA density (52) to improve comfort and agility.

# APPAREL

## INNOVATIONS

### ORGANIC COTTON

Its eco-friendly production supports water conservation, cleaner air, healthier soil, and better farmer livelihoods. Requires no harmful fertilizers or pesticides, toxic chemicals, formaldehyde, chlorine or unnatural dyes.

### RECYCLED POLYESTER

Recycled polyester makes use of existing plastic to dramatically lower environmental footprint: reduces reliance on virgin petroleum as a raw material, diverts used plastic from landfills and oceans, and decreases both water usage and greenhouse gas emissions during production.

### HEIQ FRESH

Bio-based, sustainable, durable, silver-free odor control technology with no impact on fabric properties such as breathability, hand-feel, or wicking.

### MERINO WOOL

Naturally breathable, moisture absorbing & wicking, odor-resistant, and durable with a luxurious hand-feel that helps regulate skin temperature in any season.

### NANOWIK

Moisture movement technology in fabric delivers ultimate comfort, moving moisture away from the skin through a wicking capillary action for faster evaporation and drying properties.

### SEAMLESS

Seamless body construction provides abrasion-free comfort, maximum stretch & recovery, unrestricted mobility and ultimate freedom of movement.

## AN ENHANCED FOCUS ON THE ENVIRONMENT

Organic cotton. Recycled polyester. Recyclable hang-tags and packaging comprised of 100% post-consumer recycled material. Wilson's 2021 apparel line is committed to on-court comfort, style and performance while taking steps to reduce its environmental footprint and support eco-friendly processes.

**BELA SEAMLESS CREW III NEW** ★ RETAIL: XX

Polyester: 76% / Nylon: 24% • Performance soft knit crew with rib knit detail at neckband and sleeve cuffs • Seamless body for abrasion-free comfort and ultimate freedom of movement • Bio-based HeiQ Fresh: sustainable, durable, silver-free odor control technology (prevention & neutralization) • Engineered mesh ventilation for reduced weight and optimal breathability • Bela signature & W logo lock-up heatseal on upper left chest • Featuring nanoWik® moisture movement technology for ultimate comfort
