ROLAND GARROS® BLADE® NEW ***

Designed for today's aggressive game, Blade serves as the top-played franchise on Tour for a reason: commanding feel. Thinner, more flexible beams provide a strong connection and feel for the ball, inspiring players to dictate points. Equipped with a variety of specs, this versatile lineup boasts a sharp design for the next generation of hard-hitting players.

PARIS COLLECTION

Inspired by the 90’s hip hop culture in Paris, graffiti artist Hope collaborated with Wilson on an authentic Paris collection emanating his signature style of beauty, emotion, character and contrasting colors. Once a teenager spray painting the streets of the French capital as a hobby, Hope has become a popular artist in the French street culture and exhibits his art all over the world. @hope_1393

• Please note these are not official co-sponsored products of the Roland Garros tournament.

PERFORMANCE RACKETS

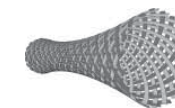

INNOVATIONS

FORTYFIVE°

Patent-protected lay-up produces a more connected-to-the-ball feel while better complementing the modern, vertical swing path. Material increases both flexibility and stability without compromise through the swing.

DIRECTCONNECT

Carbon fiber handle extends to connect directly to end cap for improved feel and enhanced torsional stability.

BRAID 45

This update to the classic Pro Staff Graphite and Kevlar braid arranges the braid fibers at 45 degree angles, allowing the braid to "breathe" more upon impact. The result is an enhanced pocketing feel combined with incredible stability.

POWERPROFILE™

Encompasses three geometrical enhancements designed to boost stability and generate easy power off the strings.

Blends the volume of the current PWS over a larger area to open up the string bed, delivering more power while maintaining stability.

SWEET SPOT CHANNEL

Cavity on the inside of the frame extends the cross strings for more power and responsiveness off the string bed.

Inverted rib in the throat area increases torsional stability for easier power and reduced frame twisting.

SPIN EFFECT®

Patented Spin Effect Technology is the first racket system that actually increases ball RPM without players changing their swing. The net seems lower and the court feels longer on all your shots.

BRAIDED GRAPHITE + BASALT®

Braided Graphite Basalt is an elastic and reactive material combination that improves the flex of a racket. This evolution of Wilson's BLX® technology increases the ball's contact with the strings to provide enhanced feel and greater control.

HIGH PERFORMANCE CARBON FIBER

Developed for aggressive swings, this premium modulus carbon graphite provides increased frame stiffness for explosive power.

TRIAD

Three-piece Racket system where hoop and handle are separated with Iso-Zorb, providing the ultimate in comfort and soft feel.

PARALLEL DRILLING

Provides a consistent, more forgiving string bed response while dramatically increasing the sweet spot.

Spin Effect® Technology is a racket and string pattern innovation that increases ball spin. Pros often customize the racket they use. Racket specifications on endorsed consumer models may vary from the models used by Pros for match-play.

PRO STAFF® V13

Featuring a design that summons the heritage of the iconic Pro Staff franchise from years past, the all-new Pro Staff series enhances precision while maintaining the classic feel beloved by its users worldwide. The key ingredient: braid fibers arranged at 45 degree angles net improved ball pocketing and incredible stability.

TENNIS BALLS

A FOCUS ON SUSTAINABLE PERFORMANCE

Wilson is committed to maximizing performance on the court and minimizing its footprint off it. Take a look at how Wilson is changing the tennis ball landscape through creative initiatives that emanate sustainable performance.

ECO OVERCAP

Unveiled at the 2020 US Open, Wilson's tennis ball cans now feature an eco overcap that cuts the amount of required plastic in half. For players that prefer to re-use their cans, the overcap manages to prevent balls from spilling out – even when turned completely upside down.

TRINITI

Launched in 2020, the groundbreaking tennis ball is the first performance tennis ball with fully recyclable packaging. In addition, unique core and felt materials deliver enhanced durability and longer fresh-ball feel. Five percent of Triniti profits support global sustainability efforts.

TRINITI CLUB

Available only in cardboard 72-ball master carton packaging, Triniti Club eliminates the need for individual sleeves. Developed for clubs and academies, players and coaches can directly place the balls into their baskets without having to dispose any packaging. Balls also feature unique Triniti core and felt materials that provide enhanced durability.

PRACTICE TENNIS BALLS

In an effort to minimize packaging, Wilson removed the overcap and labels from its practice tennis balls sent to clubs and academies. Since these balls typically end up in baskets after opening, the overcap and label were deemed unnecessary and removed from production.

RECYCLEBALLS PARTNERSHIP

A non-profit founded in 2014, RecycleBalls collects and recycles millions of tennis balls in the US that otherwise end up in landfills each year. They then repurpose these materials into socially relevant products, such as tennis courts, playgrounds, turf and other sustainable uses. The RecycleBalls program works through the distribution of weather-resistant bins at tennis courts, community centers and tennis retail locations. For more information on ways to become involved, please visit www.recycleballs.org.

A BETTER BALL FOR THE PLANET

- 100% SUSTAINABLE PACKAGING
- ENHANCED DURABILITY WITH LONGER FRESH-BALL FEEL
- 5% OF TRINITI PROFITS SUPPORT WORLDWIDE SUSTAINABILITY EFFORTS

TRINITI

TRINITI[®] ★

Engage Core™* maintains ball liveliness 4x longer and produces more consistent bounce than standard core

STR Felt™** is 50% more flexible than standard felt for more core compression and longer dwell times

100% Sustainable packaging first of its kind in performance ball category

STRINGS

STRING AT A GLANCE

String performance depends on a number of factors: string type, gauge and tension. Take a look at how these factors generally impact popular performance traits.

STRING TYPE	CONSTRUCTION	SKILL LEVEL	POWER	CONTROL	COMFORT	SPIN	DURABILITY
NATURAL GUT	Individual strands of serosa fibers	All					
MULTIFILAMENT	String filaments wrapped with a PU binding agent	All					
MONOFILAMENT	Single, solid extrusion of polyester material	Medium/Advanced					
SYNTHETIC GUT	A Solid monofilament wrapped by smaller filaments	Recreational					

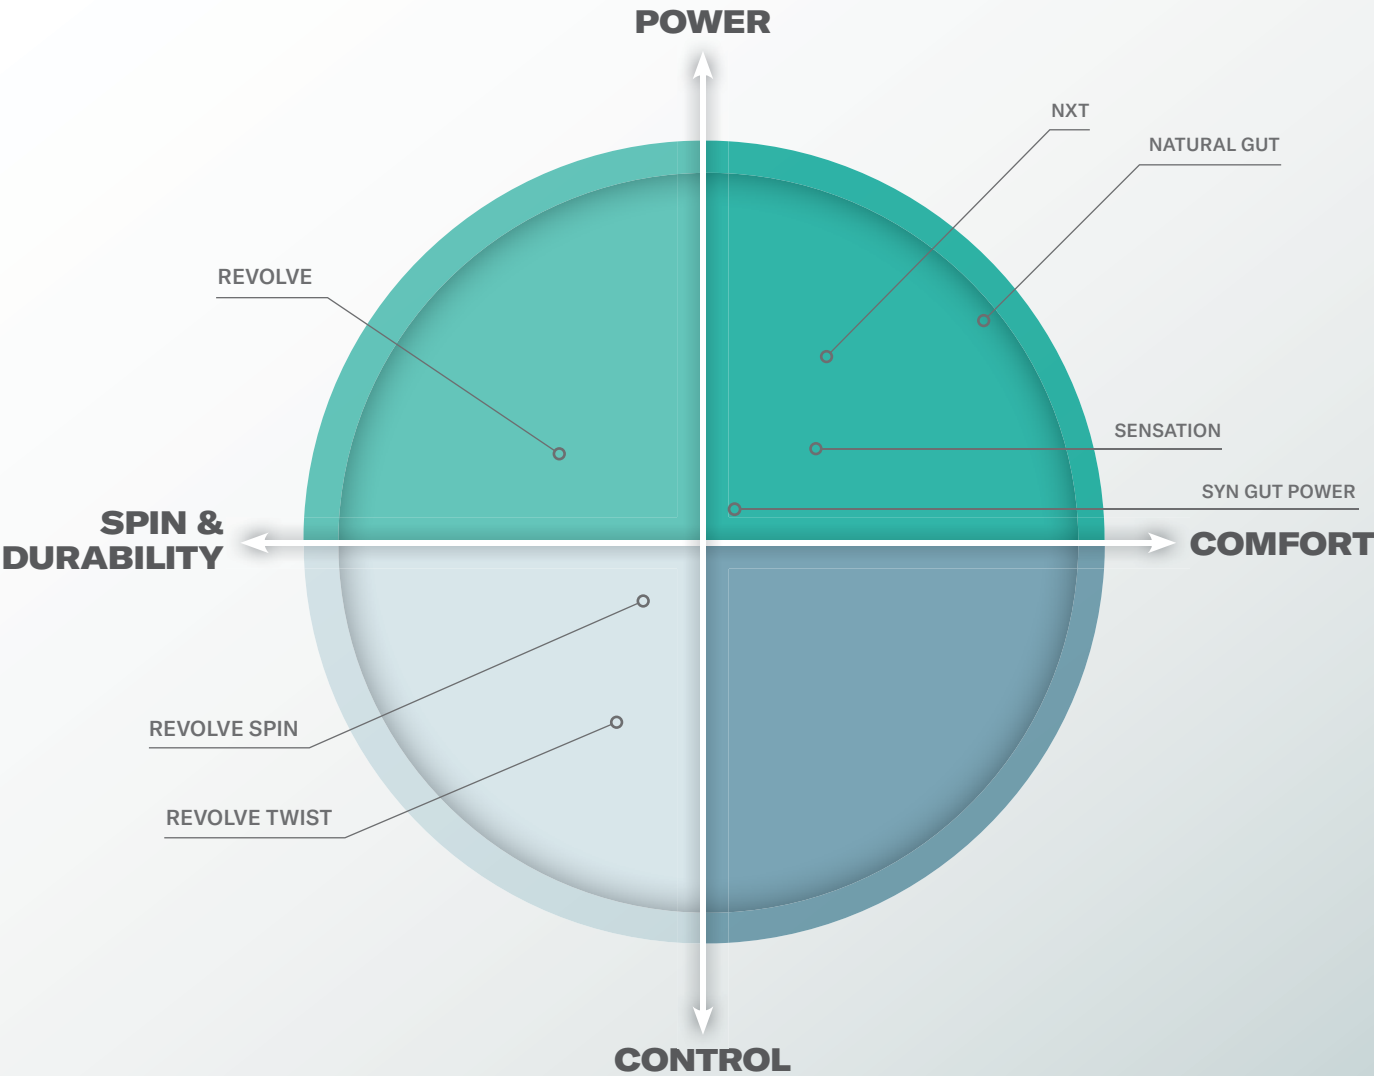

STRING CHARACTERISTICS

GAUGE	POWER	CONTROL	COMFORT	SPIN	DURABILITY
THINNER					
THICKER					

TENSION	POWER	CONTROL	COMFORT	SPIN	DURABILITY
LOWER					
HIGHER					

WILSON® STRING FAMILY COMPARISON

This graph captures general Wilson string performance by franchise. Please note that performance within each franchise will vary slightly.

POWERED BY SOLAR

Luxilon is committed to the implementation of sustainable practices to help brighten the future of this planet. In 2021, 100% of Luxilon's energy supply is power by solar panels on the roof of the factory – an excellent example of energy conservation without sacrificing innovation. To honor this achievement, the below solar power icon is featured on all Luxilon set and reel packaging.

4G® ★
Maximum tension • Legendary power and spin
• Comfort

SOFT GOODS

POWER

NO COMPROMISES

Maximize your explosiveness with breathable outfits and stable footwear crafted for excellent range of motion and dynamic movement.

SPEED

NO LIMITS

Reach another gear with lightweight attire designed for no distractions or inhibitions as you go sideline to sideline.

FOOTWEAR

UPPER

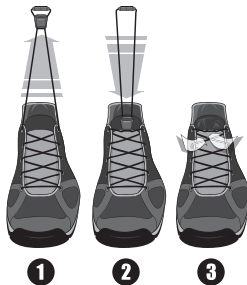

ENDOFIT®
Inner sleeve construction provides enhanced comfort, stability, and an intuitive fit experience.

SENSIFEEL™ 2.0
A minimally layered upper with an engineered mesh that provides enhanced breathability, feel, support, comfort, and a homogeneous fit.

MEDIAL DRAG PADS
Rubber or TPU overlay(s) on the medial side supplies added durability and protection when dragging the foot.

QUICKLACE
Minimalistic and strong lace for one-pull tightening. Easy-on, easy-off.

MIDSOLE/OUTSOLE

4D SUPPORT CHASSIS™ 2.0
Split chassis extends the chassis under the foot to provide enhanced support and forward propulsion. Lateral piece runs from heel to toes for ultimate stability and control throughout dynamic movement.

ENERGY SURGE
Lightweight EVA foam in forefoot of midsole lends softer feel for optimal transfer of body weight through impact, creating more explosive acceleration.

4D SUPPORT CHASSIS™
An asymmetrical heel-to-toe chassis that delivers enhanced stability and limits supination / torsion to help control pivot movements while setting up for powerful strokes.

KAOS CHASSIS
A double chassis construction to enhance the natural foot movement via a flexible arch support for comfort & agility and a lateral support for torsional control & overall stability.

PRO TORQUE CHASSIS (PTC) LIGHT
Arch technology is built for speed by providing ultimate stability and flexibility.

DYNAMIC FIT
DF1: Heel-to-toe drop 6mm. Low-to-the-ground court feel, dynamic comfort, agility.
DF2™: Heel-to-toe drop 9mm. Cushioned court feel and quick reaction.
DF3: Heel-to-toe drop 12mm. All-around court feel and cushioning.

R-dst⁺ / R-dst™

MIDSOLE
R-DST™: Best combination of cushioning and rebound for more dynamic performance.
R-DST™: Augments cushioning and rebound for comfort and responsiveness.

DURALAST™
Exclusive high-density, consummately durable rubber compound provides super abrasion resistance and maximum traction on all surfaces.

AUXILIARY

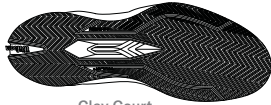

WSS
Assymetrical heel counter for enhanced foot support. Reduced Rubber thickness on outsole eases propulsion. Lower EVA density (52) to improve comfort and agility.

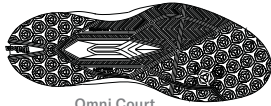

SOLE VARIATIONS

All Court

Clay Court

Omni Court

RUSH PRO

The 6th generation of Rush Pro marks 10 years of innovation, design and comfort for tennis players across the world. Featuring a new arsenal of technologies and styles in its stable, the 2021 Rush Pro upgrades forward propulsion without compromising lateral stability to elevate dynamic footwork for aggressive styles of play.

UPPER

Sensifeel 2.0 sports an engineered mesh upper that delivers a supreme blend of comfort, breathability and support. Impressive flexibility of upper accommodates wider variety of foot types.

PROPULSION

A brand new foam formula has entered the game: Energy Surge, a technology co-developed with Salomon, improves rebound and propulsion under the forefoot to optimize explosive acceleration. This new foam also provides enhanced comfort over hours of play.

SOLE

An integral piece of Rush Pro Surge and 4.0, 4D Support Chassis 2.0 splits the chassis for excellent forward propulsion alongside enhanced lateral stability and control. Wilson's signature Duralast rubber compound sole ensures maximum traction on all court surfaces.

APPAREL

INNOVATIONS

ORGANIC COTTON

Its eco-friendly production supports water conservation, cleaner air, healthier soil, and better farmer livelihoods. Requires no harmful fertilizers or pesticides, toxic chemicals, formaldehyde, chlorine or unnatural dyes.

RECYCLED POLYESTER

Recycled polyester makes use of existing plastic to dramatically lower environmental footprint: reduces reliance on virgin petroleum as a raw material, diverts used plastic from landfills and oceans, and decreases both water usage and greenhouse gas emissions during production.

HEIQ FRESH

Bio-based, sustainable, durable, silver-free odor control technology with no impact on fabric properties such as breathability, hand-feel, or wicking.

MERINO WOOL

Naturally breathable, moisture absorbing & wicking, odor-resistant, and durable with a luxurious hand-feel that helps regulate skin temperature in any season.

NANOWIK

Moisture movement technology in fabric delivers ultimate comfort, moving moisture away from the skin through a wicking capillary action for faster evaporation and drying properties.

SEAMLESS

Seamless body construction provides abrasion-free comfort, maximum stretch & recovery, unrestricted mobility and ultimate freedom of movement.

AN ENHANCED FOCUS ON THE ENVIRONMENT

Organic cotton. Recycled polyester. Recyclable hang-tags and packaging comprised of 100% post-consumer recycled material. Wilson's 2021 apparel line is committed to on-court comfort, style and performance while taking steps to reduce its environmental footprint and support eco-friendly processes.

APPAREL SEGMENTATION

Through our equipment and gear, we aim to unlock the best in every athlete. The spirit of the 2022 Wilson Apparel Collection is simple: Look Good, Feel Good. The execution of the collection is more complex: odor control, ultra lightweight fabrics, seamless properties and sustainability measures have blended together to create a collection unlike any before. On or off the court, male or female, younger or older, this collection ignites confidence, style and comfort for the tennis player within everyone.

PERFORMANCE

Innovative, lightweight fabrics designed for ultimate dynamic movement in competitive play.

TRAINING

Athletic, comfortable pieces ideal for warm-ups, workouts and general lifestyle use.

TEAM

Exclusive line dedicated to racquet teams, clubs and academies; adapted for personalization.
